

Hi Chook

Great tour  
Great spots  
Great birding  
Great caring organisation  
Great outcomes  
Nice folk too...

I thoroughly enjoyed the trip, the organisation, the birding of course, really good accommodation, food too.  
My first trip to the Cape which was an experience I have waited a long time for, terrific due to this tour.

Chook is the 'real deal Aussie', great birder, hard core bird finder, delivers a great product and works hard to deliver fantastic results

I've been on birding tours before here and overseas, taken tours a plenty myself and know the odd thing or two but Chook is in another league.

A massive list all ticked off, all the endemics, the tough to find ones, the difficult to sort out ones and all with great looks. Patience in abundance and seriously hardworking with a deep knowledge of his craft, Chook is apart from his peers

He's freaky that Chook. He not only found Chestnut-breasted Cuckoo, he walked around calling until it followed him onto a dead tree where we all got great looks. Again!!! That's a pro!

Sure all the endemics and a huge list ticked off, plus great accommodation and meals, faultless organisation and memorable company were delivered

We'll be back

The cost / enjoyment ratio is all in Chook's favour  
It's a cheap tour that delivers so much enjoyment value  
AND all the birds!  
I'm planning my next tour...

All true too...

Many thanks Chook  
I'll see you again

Ivor
